

# PORTI-W25 – 4" Portable Pocket Printer

## General Features

- Pocket Size (138mm x 88mm x 29mm).
- Lightweight (275.5g).
- Silent direct thermal printing.
- High Speed (40mm/sec).
- High Resolution (203dpi, 8 dots/mm).
- IrDa Ver. 1.0 or Bluetooth and Serial (RS-232) Interfaces for maximum flexibility.
- Easy paper loading (clamshell design)
- State of the art 2 dimensional barcode print technology.
- Easy maintenance with self diagnostics
- Microsoft Windows CE, 98/ME/XP/Palm OS compatible.

## Technical Specification

|                        |                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------|
| Printing               | Direct Thermal Printing                                                                                    |
| Paper Loading          | Clamshell Design                                                                                           |
| Characters per line    | 80cpl                                                                                                      |
| Character Size         | 9 x 24 dots, 16 x 24 dots                                                                                  |
| Dots per line          | 832 dots                                                                                                   |
| Resolution             | 203dpi, 8 dots/mm                                                                                          |
| Print Width            | 4" (104mm, 832 dots)                                                                                       |
| Printing Speed         | 40mm/sec                                                                                                   |
| Dimensions (W x D x H) | 138mm x 88mm x 29mm                                                                                        |
| Weight                 | 275.5g (including battery pack)                                                                            |
| Paper Supplied         | 118mm wide (25mm Ø)                                                                                        |
| Interface              | IrDa Ver1.0(SIR) or Bluetooth and Serial (RS-232C)                                                         |
| Barcode Supported      | PDF417 (2-dimensional), Code128, Code 39, UPC, EAN, KAN, JAN, CODABAR, I 2/5                               |
| Battery                | Rechargeable 7.4VDC, 1.4A (Li-ion)                                                                         |
| Battery Charger        | Input 85 to 240VAC, 50 to 60Hz,<br>Output 8.4VDC<br>(4 hours for full charge – 1 hour continuous printing) |
| Print Head Life        | 50km                                                                                                       |
| Relative Humidity      | 10 to 80% (non-condensing)                                                                                 |
| Operating temperature  | 0°C to 40°C                                                                                                |

## Standard Accessories

Battery Charger, Roll of Paper, Serial interface cable.
